

New Products

Fiber Laser Chirped Pulse Amplifier (FLCPA)

Pulse energy: up to 10 μ J;
Repetition rate: up to 200 kHz;
Pulsewidth: ~ 700 fs;
Wavelength: 1.0 μ m band or C-band.

Narrow Band Pulsed Fiber Laser (FPLNB and PSLNB)

Repetition rate: 10s of MHz (FPLNB) or ~ GHz (PSLNB);
Wavelength: 780nm, 1 μ m, C-band or L-band;
Pulsewidth: picosecond or sub-nanosecond;
Bandwidth: sub-nanometers;
Mode locking format: active or passive.

BIOS / Photonics West Invitation

You are sincerely invited to visit us at Biomedical Optics (Booth #8528, Jan. 24 ~ 25, 2009) and Photonics West (Booth #6214, Jan. 27 ~ 29, 2009) in San Jose, California, and see our ULTRA-SHORT PULSE FIBER LASER products. We will do a live demonstration of our [OEM femtosecond seed laser module](#) and high repetition rate (up to 40 GHz) [picosecond fiber laser system](#). Among other products, we will be showing our new products in the left column.

New Company Name and Logo

Calmar Optcom has changed our company name to [Calmar Laser](#). While retaining "Calmar" in name and company spirit, the new company name better reflects our product focus and the markets we address. Note our updated logo too!

Calmar remains a leader in ultrashort pulsed optical fiber lasers. We continue to serve the scientific market well while further expanding our OEM market, which is becoming a major part of Calmar Laser's business. Calmar Laser wishes to remain focused primarily on being a fiber laser provider, proving our diverse scientific and OEM customers a reliable source of high quality low cost laser sources.

New Website

Calmar Laser's new website at www.calmarlaser.com will help our customers understand our company and find the products they need. Among the many new changes, you will find the following:

[Product Selection Tables](#)

[An Application Matrix](#)

[Technology update and new White Papers](#)

New Email Address

We have also changed our email address corresponding to our new domain name. Our new email address format is

["FirstName.InitialOfLastName@calmarlaser.com"](mailto:FirstName.InitialOfLastName@calmarlaser.com)

New Catalog

Calmar Laser's new catalog has been expanded to include our expanded product line, reflecting Calmar Laser's expertise in ultrashort pulsed fiber laser products across diverse laser types. This catalog can also be downloaded from our [website](#).
