Calmar Laser, Inc. to Present an Extensive Range of Products at ILOPE 2010, in Beijing

Sunnyvale, CA, Oct. 1, 2010---Calmar Laser Inc., a leading developer and manufacturer of ultrafast fiber lasers, is committed to build upon its strong presence in the Asian market place and will attend a major trade in China this month.

From October 27 to 29th, Calmar will be exhibiting at the International Laser Optoelectronics and Photonics Exhibition (ILOPE) in Beijing, China. On Booth #4607, alongside their Chinese distributor, Skyray OE, Calmar will showcase a broad range of ultrafast and ultrashort pulsed fiber lasers for OEM and scientific end users. Specifically, the high pulse energy Cazadero femtosecond fiber laser with output at 1550nm and 1030nm, the high power Mendocino femtosecond fiber lasers at 1580/1550/1060/780nm, compact OEM Mendocino seed laser modules, high power Coronado optical fiber amplifiers for short pulses, and 40GHz or 10GHz Eureka picosecond fiber lasers will all be on display. There will also be live demonstrations of the Mendocino 780 nm, 50 mW femtosecond fiber laser bench top system and the 1550 nm or 1060 nm OEM module.

Calmar's fiber lasers are used in a variety of applications including biophotonics, refractive surgery, micromachining, nonlinear optics, materials research, multiphoton microscopy, metrology, communications, ultrafast sampling, and terahertz generation.

Visitors are encouraged to stop by the booth at their convenience. Anyone interested in scheduling an appointment to discuss specific application needs, should contact Dr. Peter Hu.

About Calmar Laser

Calmar Laser manufactures innovative fiber laser and fiber amplifier solutions for OEM, industrial, medical and scientific applications. Since 1996 Calmar has been a key supplier and reliable OEM partner to customers for advanced high-speed test and measurement applications, optical communications, component characterization, material diagnosis, transmission, biomedicine and micromachining. Today, Calmar is an industry leader in supplying robust, compact, ultrafast fiber lasers designed for simple hands-off reliable operation. For more information about Calmar Laser, visit the Company's Web site at <http://www.calmarlaser.com/> for product updates.
